

**New WIN4 Building**

Academia Bilingual School is located in the WIN4 campus in Winterthur adjacent to the Deutweg sport complex, offering modern sport, meeting and catering facilities. Lessons will be held in a modern temporary facility on campus during the construction of our new classrooms.

Our school is well connected by bus and the next railway station (Winterthur-Grüze) is within walking distance.

Bilingual School Winterthur

# About Us

## Academia Bilingual School at a glance

Our day school offers a consistent approach to immersive bilingual education (German/English) from kindergarten to year 8. We follow a blended version of the Cambridge International Curriculum and Lehrplan 21 (the national curriculum of Switzerland), which affords our pupils a broad array of options as they move into senior school studies.

These virtues characterize our school community:

**Collaboration, Innovation, Achievement and Respect.**

## Academia International School

Our college programme will be introduced in the summer of 2023 and will follow a two year International General Certificate of Secondary Education (IGCSE) followed by the International A Levels focusing on student strengths and interests to forge a pathway to university entrance locally and abroad. Our college programme is accredited by the most renowned examination institutions worldwide: Cambridge Assessment International Education and Pearson Edexcel.

## Our partners

# Entry

## Academic success

Our dedication to smaller classes compliments our commitment to differentiation and individual differences. Internal assessments support targeted learning against both international and national standards. Each year we place a large amount of students successfully into our college or local programmes.

We welcome new students warmly. Our language booster lessons entail additional support in the second language to help newcomers commence at our school. Our students have normal or above-average aptitude. They have good learning habits and strong social skills. They display resilience, show initiative and contribute to the school community. Admission is based on an interview, student recommendation from the current school, past reports, an entrance exam and trial days where possible.

## Connection to Swiss state schools

For many families, a bilingual education is a soft landing into Swiss life and education. Students achieving at our school are typically successful should they venture into other educational systems throughout their schooling. Our school is cantonally recognised allowing access to state school pathways at anytime.

## Our team

Our teaching team brings a great mix of experience, passion and commitment to our school. The close cooperation between class teachers and specialized subject teachers is important for a great learning experience. Our teachers come from Switzerland, Germany, France, Great Britain, the United States, Canada, New Zealand and Australia.

## Student population

We are a small school by design to meet the needs of the individual in a familiar learning community. Our school has students from many different nations. Interestingly we have noted bilingual education is continually becoming more popular with monolingual families which aligns with the measured success and popularity of such educational programmes.

## Additional offers

- ✓ Booster lessons, supervised homework (Primary) and study time (Secondary) compliment our core programme and are within the standard tuition fees.
- ✓ After school clubs from free play to cooking to coding and football to dance. A broad mix is offered through the week.
- ✓ Holiday clubs throughout the year rooted in exploring our local area.
- ✓ Students enjoy balanced and healthy midday meals at the L'Arena restaurant on campus.
